The Importance of Homework

We would encourage all parents/guardians to ensure their children complete their homework. There are so many benefits of doing homework:

- Homework teaches students about time management.
- Homework teaches students how to set priorities.
- Homework helps teachers determine how well the lessons are being understood by their students.
- Homework teaches students how to problem solve.
- Homework gives parents a chance to see what is being learned in school.
- Homework teaches students how to take responsibility for their part in their educational process.
- Homework teaches students that they may have to do things, even if they don't want to.
- Homework teaches students to work independently.
- Students perform best when their homework reinforces what they've learned in class. Homework teaches students the importance of planning and staying organized.
